Your placement:

Teaching English abroad is a wonderful, life-changing experience that everyone should have. The internship programs we offer in the Dominican Republic, involves working in a local bilingual school where you will be able to share and collaborate with professionals in the area, while strengthening your knowledge and skills teaching Dominican students. All internship positions will be available in the main cities of the Dominican Republic, and the participants will have enough free time to carry out activities of their interest or even to take Spanish classes if desired.

There are so many reasons why we recommend taking advantage of this learning opportunity abroad:

- **You will gain public speaking confidence.** Many students and recent graduates are terrified of public speaking. With this program you will have the opportunity to get hundreds of training hours in front of others and a chance to improve your overall communication skills to stand out in the crowded job market.
- **You will get valuable international work experience to build your resume.** In the globalized economy of the 21st century, having international work experience such as Teaching English Abroad is like gold on your resume. You will prove to future employers your ability to adapt to a new environment, work across cultural & linguistic barriers, and to stretch yourself beyond your "comfort zone". You will also have a great opportunity to learn a foreign language.
- **You will develop a multitude of soft skills.** Creative thinking, flexibility, time management, patience and conflict resolution are just a few honorable mentions.
- **You will gain cultural perspective.** This opportunity will immerse you in a completely different culture and way of life. This translates to a deeper understanding of different people.
- **Unforgettable memories.** With intense experiences come intense friendships and memories. The people you meet, the places you see and things you experience are likely to be more vivid and transformative than what you would experience by spending another year at home.
- **You deserve a break!** Teaching English abroad gives you the chance to experience true personal growth outside of the classroom.
